Education

Computer Science Engineer | Birla Institute Of Technology, Mesra, Ranchi (8.16 CGPA) | (Sep '23 – Sep '27)

Intermediate (Class XII) – DAV Gandhinagar, Ranchi (82.2 %) | (2022)

Matriculate (Class X) – DAV PTPS, Patratu (94.2%) | (2020)

Technical Skills

- **Languages:** Python, C++, C, Java
 - **Technologies:** MongoDB, React, DockerFile, AWS, Vercel, Shell Script
 - **Tools:** Git, GitHub, MySQL, Heroku, VPS
-

Coding Profiles

- [Codeforces](#) [LeetCode](#)
-

Relevant Coursework

- Data Structures and Algorithms
 - Object-Oriented Programming
 - Discrete Mathematics
 - Database Management System
 - Operating System
-

Achievements

- Newbie (Max Rating - 900) on Codeforces.
-

Projects

- **Mirror Leech Telegram Bot | Python, Java, Docker, API, HTML, MongoDB | Github**
 - Developed a Telegram bot that automates mirroring and leeching files to cloud storage providers like Google Drive, Mega, and Telegram.
 - Integrated APIs to enable seamless file transfers and efficient handling of large datasets.
 - Utilized Docker for containerization, ensuring portability and smooth deployment across different environments.
 - Implemented multi-threading and optimized request handling to enhance speed and efficiency.
 - Designed an intuitive command-based interface for ease of use within the Telegram chat environment.
 - Ensured secure authentication and user access control for managing cloud storage interactions and their database management.
 - Managed the entire end-to-end development process, including debugging, testing, and deployment on GitHub.
-

Hobbies

- Playing court games like Volleyball, Badminton.
- Solving Rubik's Cube.
- Casual Coding and Competitive Programming.
